

# Speed. Power. Flexibility.

The next generation of Clover Flex is here – Our fastest, most mobile-optimized point-of-sale ever. Accept every payment type on the go, tableside, at the counter and more.

## → Accept all major payment types

Let your customers pay how they want to pay. Swipe, dip or tap. Credit or debit. NFC payments including Apple Pay®, Google Pay® and more.

## → Go 100% mobile

The most complete, fully mobile setup in the Clover ecosystem. Flex is a full-fledged POS, terminal and business management system, complete with LTE connectivity. All in the palm of your hand.

## → Flex your business muscle

Want to simplify and centralize payments, customer engagement and operations in a single integrated device? Clover Flex is the business management system for you.

## Purchasing and support to fit your business

- **Flexible** – Ask your Business Consultant about the purchase option that's best for you
- **Secure** – Protect information with end-to-end encryption, data tokenization and integrated EMV® chip sensors. Transact safely with contactless payment
- **24/7/365 Support** – Help whenever you need it

## Technical specifications

- A powerful, portable POS that comes with a barcode scanner and wireless charger
- Close sales faster with Flex 4's high performance lithium-ion rechargeable battery – enough to last a business day

# Flexibility – It's baked right into the name

Whether your business operates on the go, in a food truck or at the table, Flex is purpose-built to fit your needs. Run your business wherever you are or need to be: at home, on your counter, in your apron pocket or out on the road.

-  **Sales-ready and fast!**  
Start taking orders out of the box, with minimal set-up and training. Speedy setup, fast unlocks, super-responsive touch screen, LTE connectivity and more.
-  **Anytime, anywhere cloud access**  
Access and manage your back-of-house data, reports and payroll from anywhere you need to run your business: on the floor, at the office or on the road.
-  **Be stock-smart. Manage inventory anywhere**  
Quickly build your inventory with the built-in barcode scanner. Categories, labels, modifiers and variants help you keep your inventory organized and up to date.
-  **Maximum reliability**  
Get ready to ring up sales all day long. Wi-Fi and 4G/LTE connectivity powered by a lithium-ion battery give you no-fail redundancy.
