

Run your business from anywhere with Clover

Clover is an all-in-one point-of-sale (POS) system that's ready to roll wherever you do business. Take payments in-person, online, by mail or over the phone. Track your business with robust reporting and management tools.

Take payments anywhere

Accept all major credit and debit cards, check and cash by phone, mail, online or in-person.

Build better customer relationships

Create a customer database and engage them with promotions and reminders for recurring or additional services.

Improve productivity

Get more efficient and save money by understanding what services your customers like to buy.

Keep your customers and your business safe

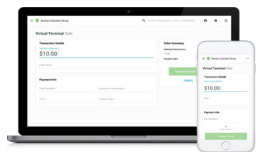

Protect data with the industry-leading technology and fraud prevention tools you and your customers deserve.

Get paid easily and run your business better with Clover:

- **Invoicing** – Email invoices and let customers pay you online using any major credit or debit card
- **Clover Virtual Terminal** – Take payments by phone by securely keying customer card information into a web browser
- **Clover Go** – Pair your mobile device with the Clover Go app to take payments. The optional reader allows card insert, swipe or tap
- **Customer Management** – Keep customers happy and coming back with promotions and a loyalty program
- **Clover Dashboard** – Track sales, access reports and manage your business from anywhere
