

Run your restaurant smarter, faster with Clover

Keep orders flowing quickly and your customers fed (and happy) with an all-in-one point-of-sale (POS) restaurant management system. Clover simplifies business operations, staff management and customer engagement so you can focus on doing what you love.

Accept payments anywhere

Take major credit and debit cards, checks, cash and contactless payments on-site, online and by phone.

Manage menu performance

Track what's selling and what's not with sales reporting by item or timeframe.

Keep in touch with guests, say hello to new ones

Free marketing tools let you run loyalty programs, promotions, and send announcements via email or text.

On-site and off-premise ordering

Create a contactless on-site dining experience with QR codes that enable scanning to order and scanning to pay.

Get paid easily and run your restaurant better with Clover:

- **Menu Management** – Easily manage menu inventory and item modifications – like protein choice, choice of side or optional toppings
- **Line Busting** – Take orders faster during peak hours with Clover Flex mobile handheld device
- **Best-in-class technology and security** – Keep customer and business data safe with industry-leading security
- **Clover Virtual Terminal** – Take payments by phone by securely keying in customer card information through a web browser
- **Clover Dashboard** – Track sales, access reports and manage your business through a single dashboard
