

Streamline your business with Clover

Free yourself to focus on what you do best – and let Clover help you run your business more efficiently. Clover flexible, all-in-one system gives you tons of options to take payments, tools to connect with your customers and insightful reports to track business performance.

Accept payments easily

Take major credit and debit cards, checks, cash and contactless payments in store, online and by phone.

Connect with your customers

Build a customer database and engage them with promotions and reminders for recurring or additional services.

Stay on top of business performance

Track key financial indicators of your business, including sales by time and type of service.

Keep your customers and your business safe

Protect data with the industry-leading technology and fraud prevention tools you and your customers deserve.

Get paid easily and run your business better with Clover:

- **Clover Point-of-Sale (POS) Devices** – Accept in-person payments seamlessly with the handheld Clover Flex, countertop Clover Mini or all-in-one Clover Station Duo
- **Clover Virtual Terminal** – Take payments by phone by securely keying customer card information into a web browser
- **Clover Go** – Take payments by mobile device with the Clover Go app. The optional reader allows card insert, swipe or tap
- **Customer Management** – Keep customers happy and coming back with promotions and a loyalty program
- **Clover Dashboard** – Track sales, access reports and manage your business from anywhere
